

SUPPORT FOR PROTOTYPING : EXAMPLE

PROTOTYPES : RPT (SLA AND SLS)

IGNITION MODULE

AIR VENT ASSEMBLY FOR TRUCK

- // After the design approval, Rapid Prototyping was done using the CAD data.
- // Rapid Prototyping was done in India using SLA process. Since fit, finish and strength of the components was important, Silicone Mold was developed and PU Casting was done to get the desired results.
- // Prototypes were tested at client's end and all were functional in actual conditions.
